Unanimously approved minutes

Old Business – As a group we discussed the plan to have a formal school update twice a year and will schedule one soon. We also discussed having a review of the Vision 2025 and how we are tracking relative to our goals. We will plan to tackle one or two topics at a time.

We have three members rolling off council and need to find replacements. We will submit recommendations along with all of the interest forms from the Parish.

Monsignor update – Monsignor gave us an update around the church and attendance. We talked about various traditions within church and how to continue to find ways to connect with the younger generation. Also talked about the Nursery and the strong candidate for the coordinator. We feel like that will make a huge difference for the nursery and the success. All of the social events have been going great and we will look to continue to do them.

With the mortgage being paid off we are exploring the idea for certain projects which include redoing the parking lot, the soundboard and repaving the sidewalks. We have experienced sound issues with echoing and people not managing sound efficiently. Also looking to maybe hire someone or upgrade system. Ideally we would like to build some kind of sound absorption for the baptistry.

Monsignor closed with prayer at 8:18pm.
